Dear Richard

US Patent Application: MEDIA IDENTIFICATION

Please find enclosed declaration and assignment documents relating to the above US patent application. All US patent applications are made in the name of the inventor(s) of that technology and must then be assigned to Snell & Wilcox.

I have indicated where each of these documents should be signed. Note that your signature on the assignment document will need to be witnessed.

Could I then ask you to pass the document back to me at SLP for filing with our patent attorneys? Do not hesitate to contact me if you have any queries on 02392 489213.

Dear Richard

**US Patent Applications: MEDIA IDENTIFICATION & VIDEO SIGNAL
PROCESSOR**

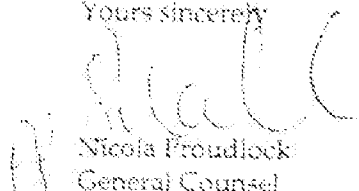

I note that we do not appear to have received the assignment documents sent to you in December 2005 and March 2006, relating to the above patent applications.

I would remind you that under the terms of your employment with Snell & Wilcox you are required, even once you have left the Company, to take all necessary steps to obtain patent protection for inventions created by you during your employment and to assign any such rights to the Company when requested.

I have again enclosed the relevant declaration and assignment documents and indicated where each of these documents should be signed. Note that your signature on the assignment documents will need to be witnessed.

Please complete and return the documents to me for filing with our patent attorneys. I would appreciate a prompt response as the matter has now been subject to some delay.

Yours sincerely

Nicola Proudlock
